Re: BCH Request for reinstatement

Dear Brothers

We met with BCH and explained what he needed to do for reinstatement. He is very repentant about what he did in the past and is willing to take whatever steps are necessary to restore his relationship with Jehovah.

There are some things he feels he has been accused of that were not true and therefore, would be a lie to admit to them. Jehovah is the one who knows all and is the one he wants to restore his relation with. It would be simple for him to confess to everything. Although that might satisfy us, it would not be right with Jehovah. Hence we appreciate his reluctance to confess to things he feels were not true.

We suggested he supply some information to explain his feelings and to offer proof of his claims. We are sending on to you his new plea for reinstatement and some of the information he has provided. You will notice references to various documents. This is a large file which we have not enclosed, however it is available should need it. We are also enclosing a comment from his wife who is an active, faithful sister in the congregation.

We appreciate that we are only hearing one side of the case. Obviously there are other matters and questions that the committee who dealt with this case would know of or would like to ask about. However it is our belief that the man displays the degree of repentance commensurate with the degree of deviation of his sins. He is cooperative with any direction provided and is regular with his meeting attendance. We have observed the man and feel that he could be reinstated.

Yours Brothers

Ormonde Blakeney
