Dear Brothers:

We are writing in connection with our correspondence SD:SSB February 26, 1996. One of the elders telephoned the Society in March regarding this matter involving Brother BCH Brother BCH daughter says that he has not apologized for sexually, mentally, and physically abusing her, and the elder confirmed that this was the case.

Was this factor taken into consideration when hearing his plea for reinstatement? If Brother BC BCH is genuinely repentant for his wrong conduct, he ought to do what he can to assist his family members who have suffered because of his wrong actions. In our letter to Sister BCG we mentioned that this matter would be pursued. Please reassure her that this is the case.

We look forward to hearing from you shortly and send our warm Christian love and best wishes.

Your brothers,

Watchtower B. & T. Society
