Dear Mr Toole:

In response to your recent inquiry about whether we had an original letter from REDACTED ED BCG dated 19 February 1995, we advise that a member of our staff, Mr Alan Wood, has located the requested letter which we have enclosed.

In addition to this letter, Mr Wood also located a report from the original committee that handled the case involving BCH 's (received 7 August 1989) as well as a report from the appeal committee concerning BCH dated 23 July 1989. These reports are also enclosed with this letter.

We understand that criminal charges have been laid against BCH and we confirm our agreement that these documents be sent to Constable Natalie Bennett of the police department in Brisbane in connection with that matter. We would like to mention, however, that these documents deal with correspondence that we would normally treat as strictly confidential as well as discussions that were held in circumstances of confidentiality. Because of this, we ask you to do whatever you can to see that these documents are dealt with as discreetly and sensitively as possible.

Please arrange to have the enclosed materials returned to us as soon as the case against BCH has been concluded.

Yours faithfully,
WATCHTOWER BIBLE AND TRACT SOCIETY
