The Body of Elders  
 Beenleigh East Congregation  
 of Jehovah's Witnesses — Qld

Dear Brothers:

We are enclosing a copy of a letter from BCH You many already have a copy of this correspondence.

He feels that his life course is in harmony with Jehovah's requirements and believes that sufficient time may have passed for him to be considered for reinstatement. He says he has been attending meetings in your congregation for the past 19 months. It seems he submitted "another plea begging for reinstatement at the beginning of September last year, 11 months ago" but has not received an answer. This does seem a little unusual and perhaps you did not receive his request for reinstatement?

Perhaps the brothers assigned to consider his standing could meet with him and give some direction. If you feel that he needs to make some adjustment so as to qualify to be accepted back into the Christian congregation, this should be clearly outlined to him. We would appreciate a brief reply to our letter in case we receive further correspondence on this matter.

Thank you for your good help as we endeavour to act in line with Jehovah's decisions. (Matt. 18:18-20) Kindly accept our very warm Christian love and best wishes.

Your brothers,

*Watchtower B.S. Society*  
 OF AUSTRALIA
